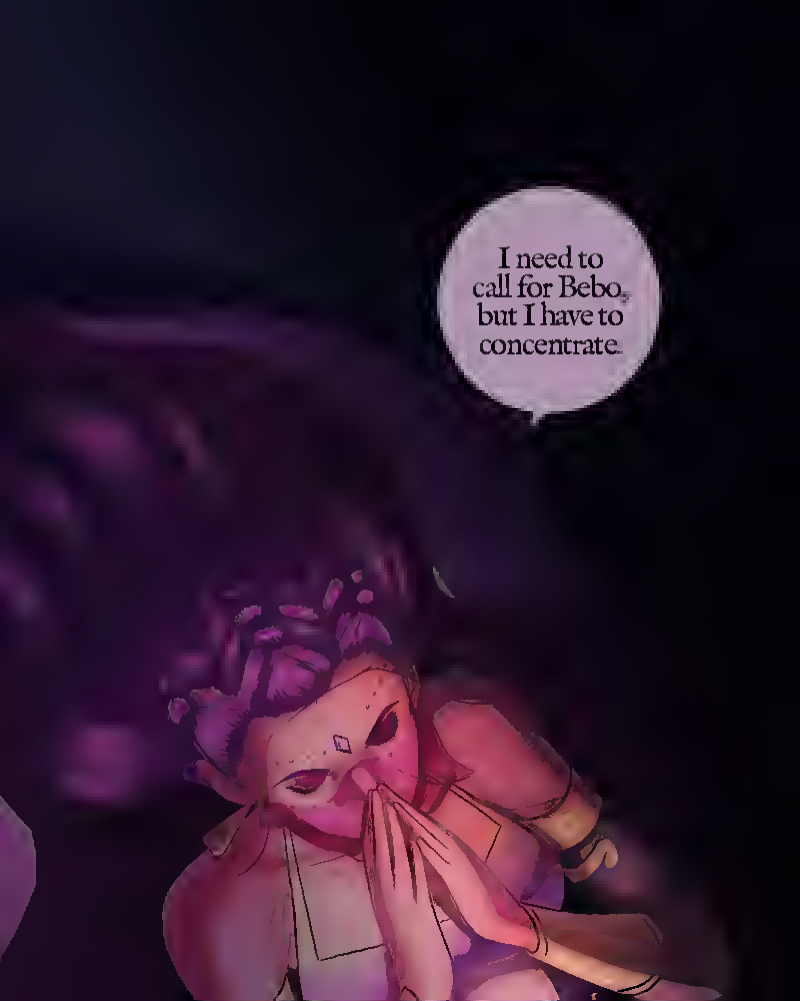
HELIOS:FEMINA

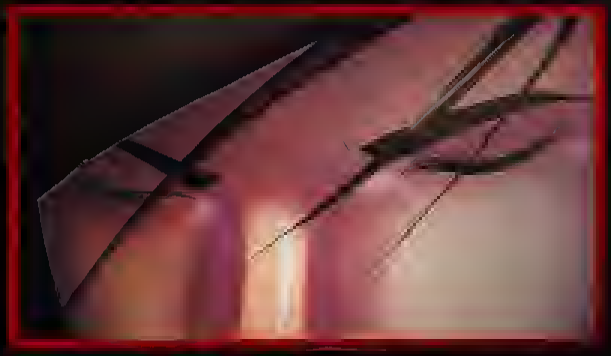
Before the Throne of Death

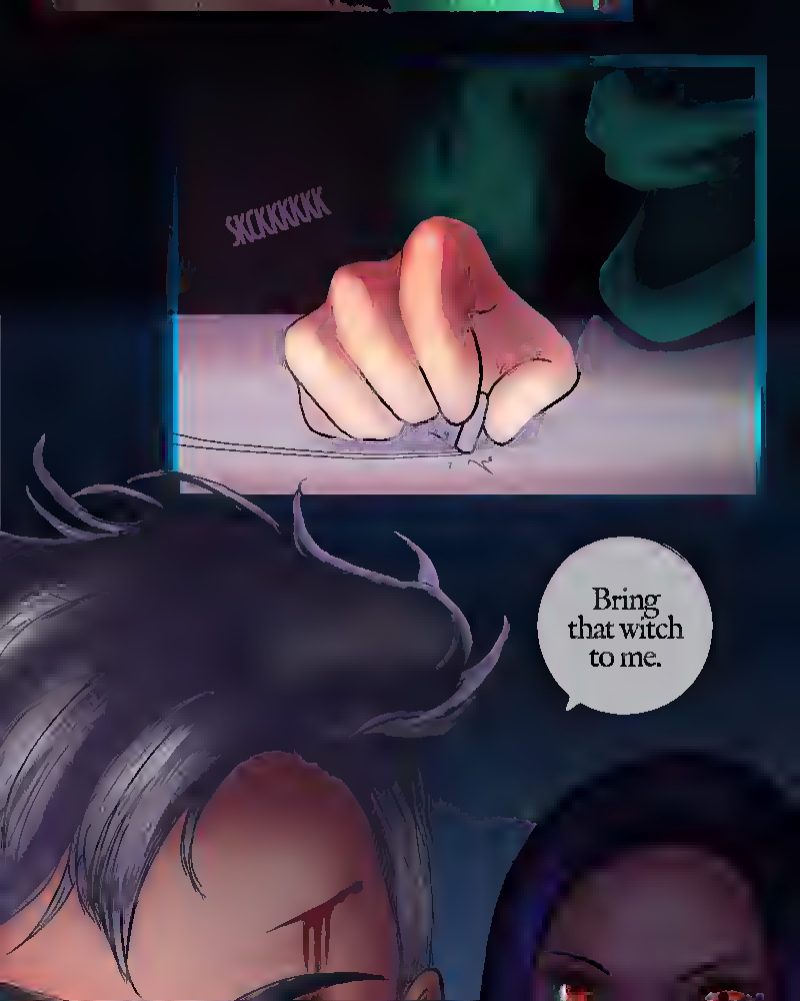


I need to call for Bebo, but I have to concentrate.

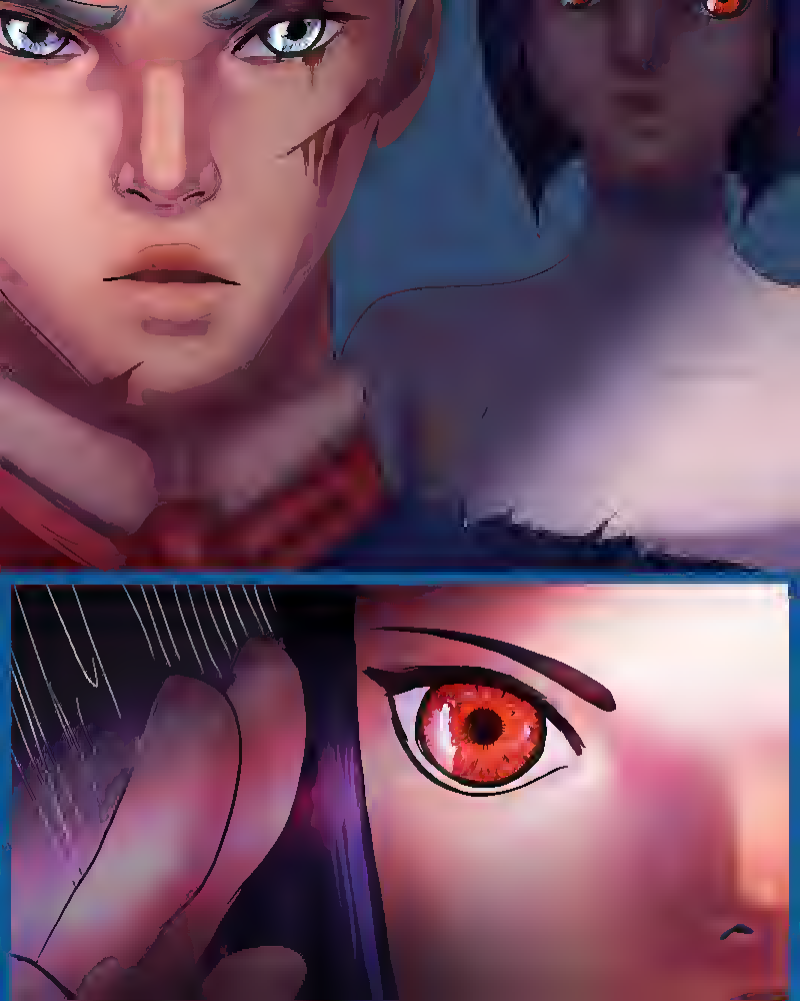
I'll need cover!
Handled.

Kazu!

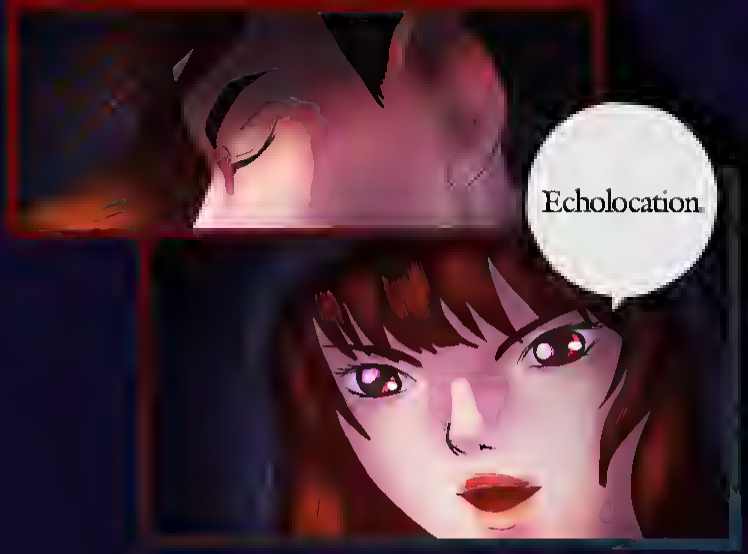




SKCKKKKK
Bring that witch to me.



How can Kazu fight them if they're all invisible?!



Echolocation.

Please work...

BEBO!!!
We're in trouble!
Can you hear me?
We need you!

We're cornered,
out-numbered, with no weapons!
Please, hurry!
Bebo!

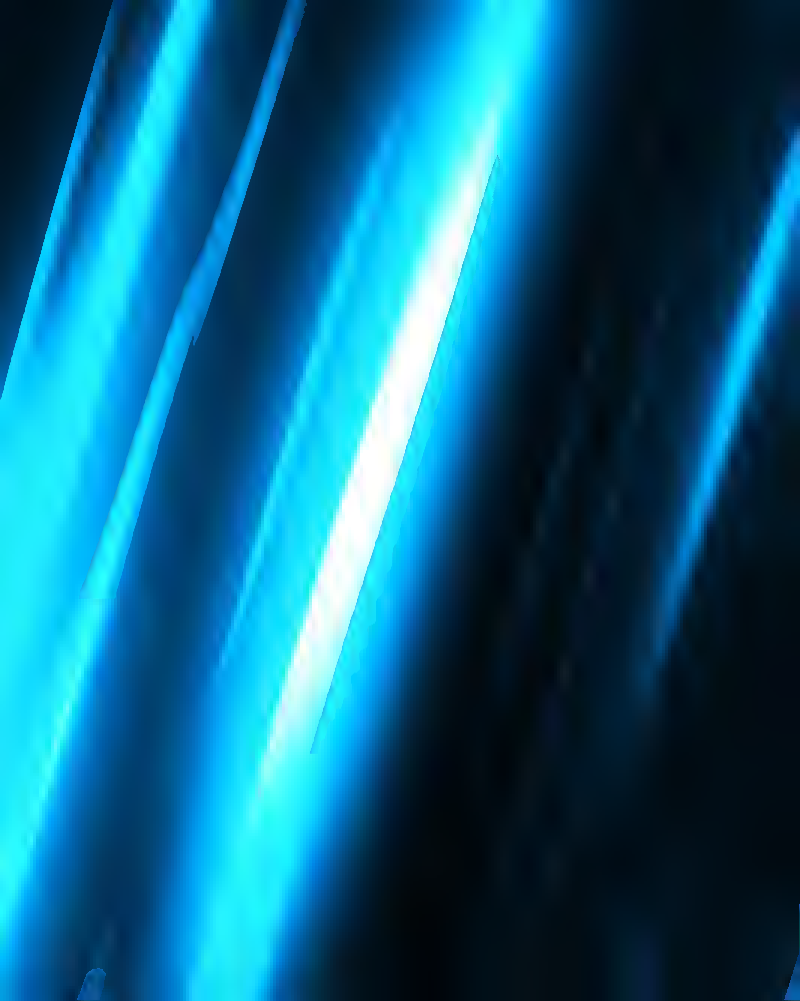
Lemme get this straight,

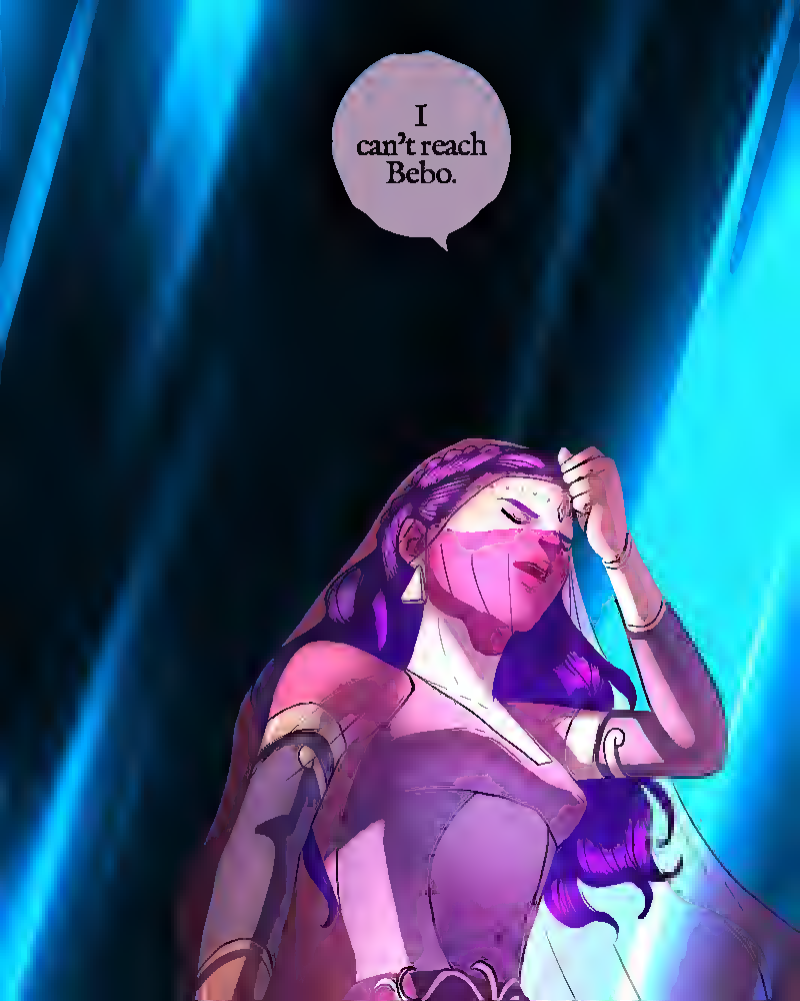
You're an alien... vegetable?

More or less.

That's deep.

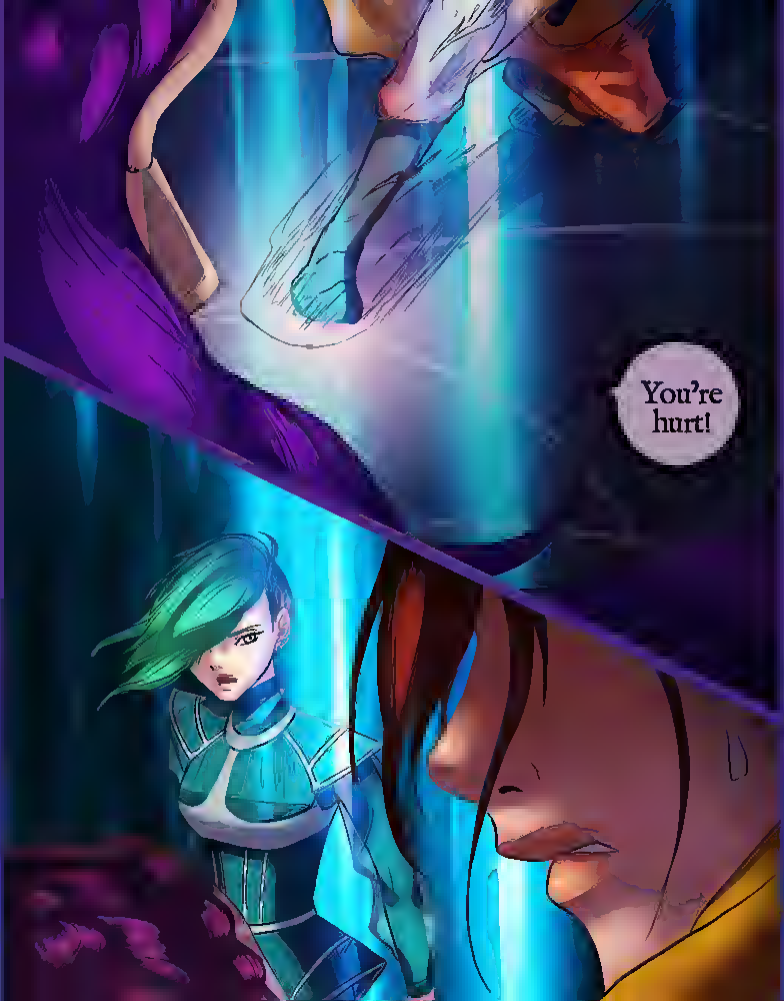
It's so LOUD!
How can anyone have a decent conversation here?!
HUH?!



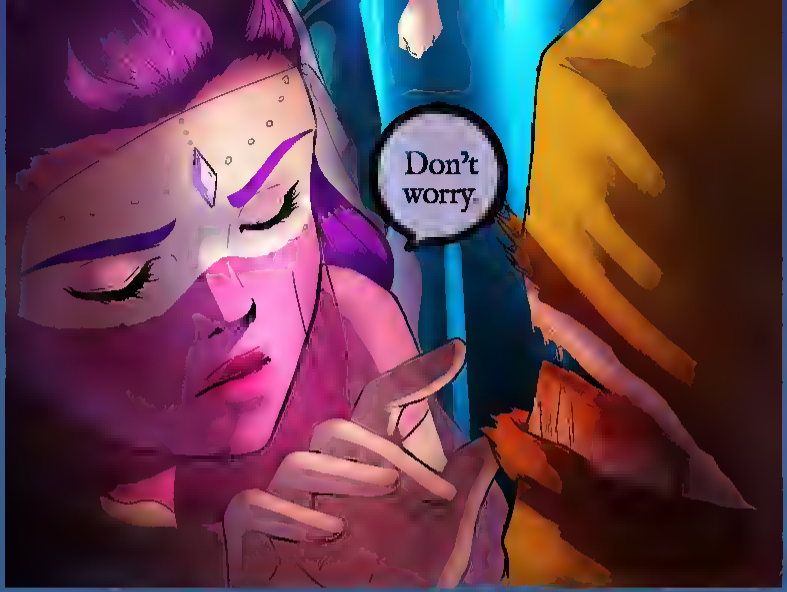


I
can't reach
Bebo.

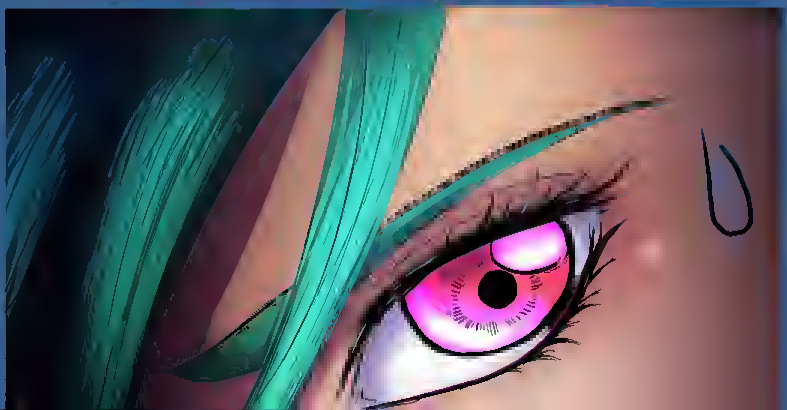
KAZU

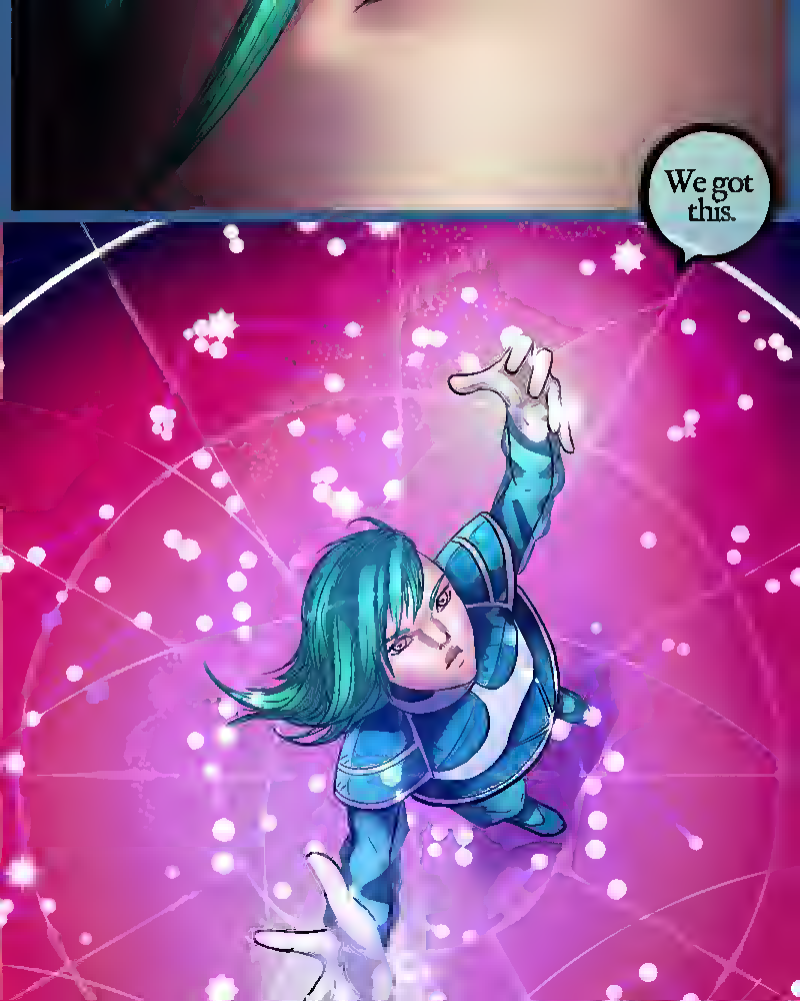


You're hurt!



Don't worry.





We got this.

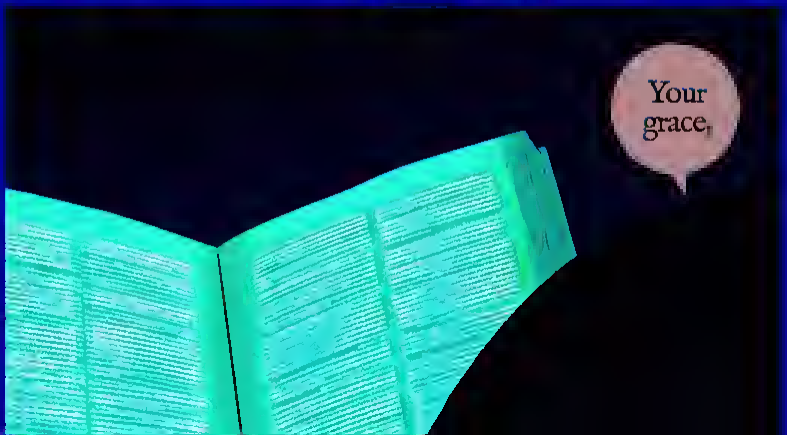
Ahhh...

That voice.
...that voice.

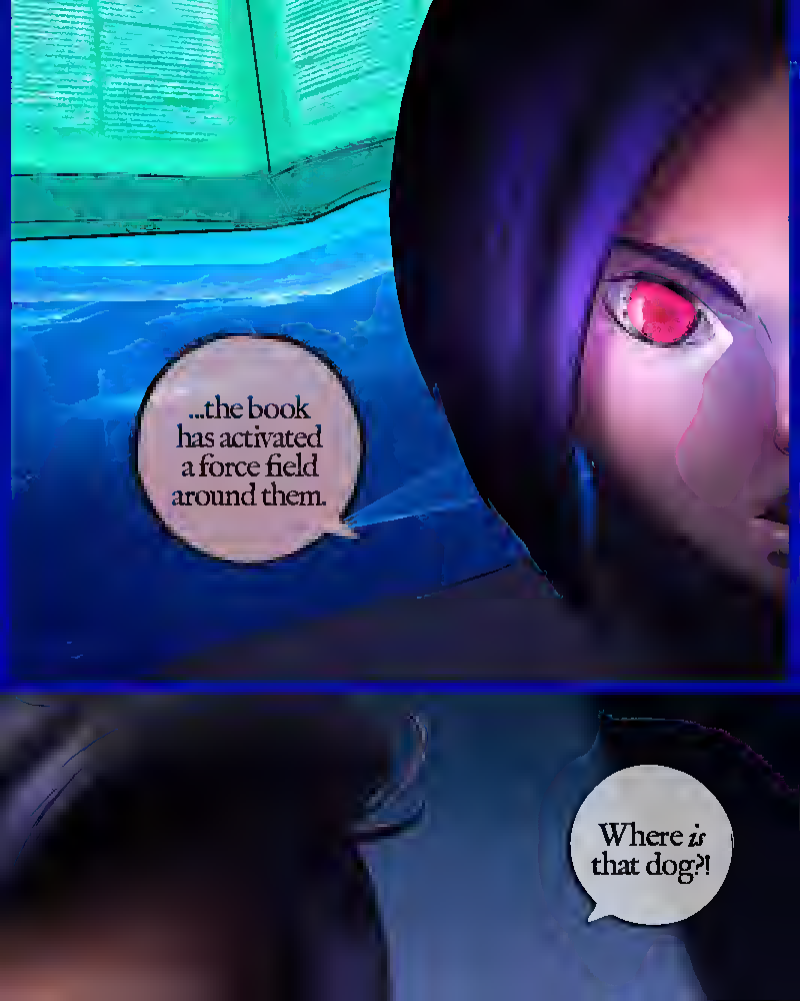
What a pleasant surprise, princess.
I see you

brought friends.
tsk tsk
Sophie... you were so promising.
Sorry, I'm allergic to fuckboys.

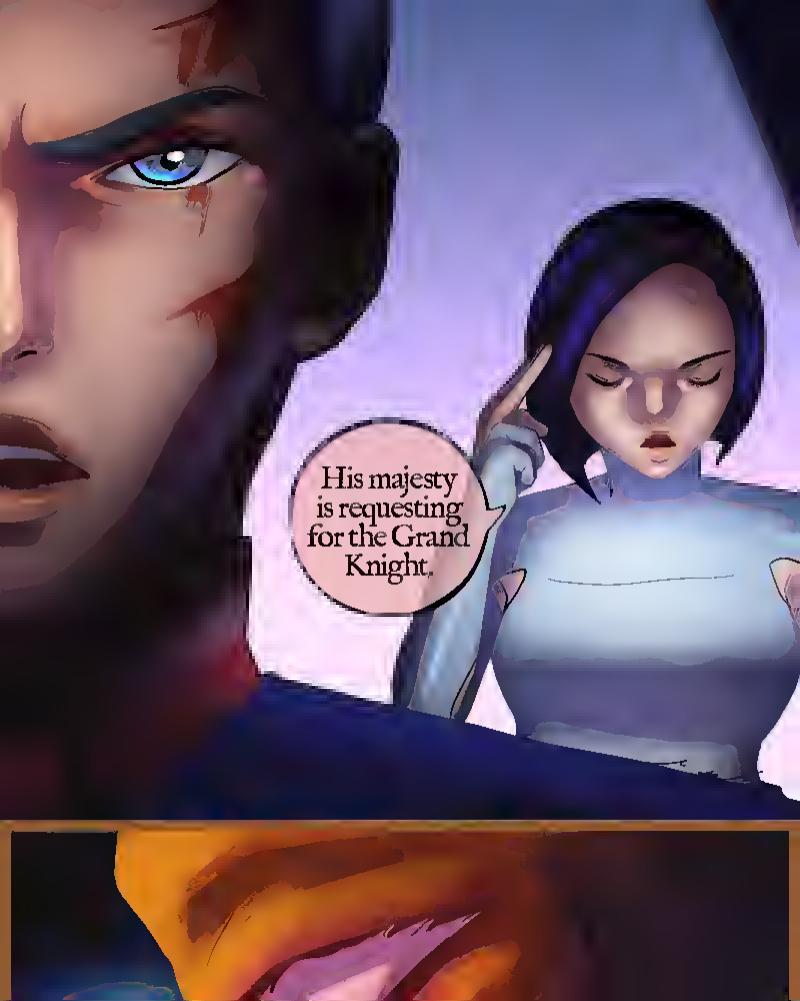
RIPPLE



Your grace,



...the book has activated a force field around them.
Where *is* that dog?!



His majesty is requesting for the Grand Knight.

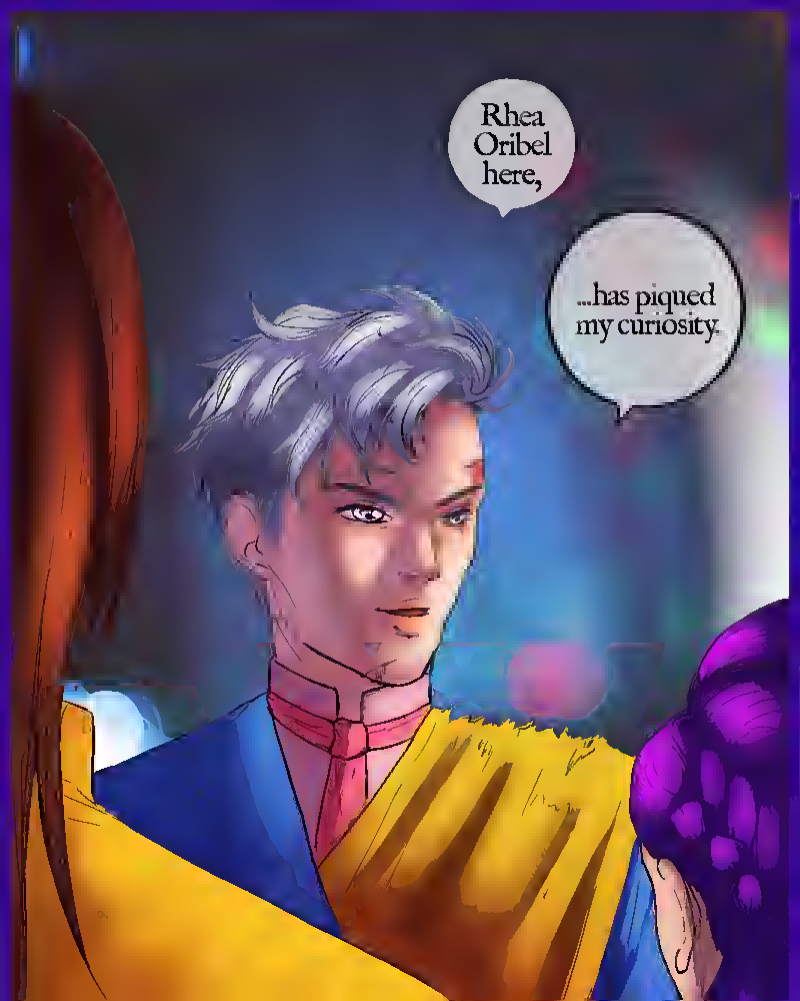
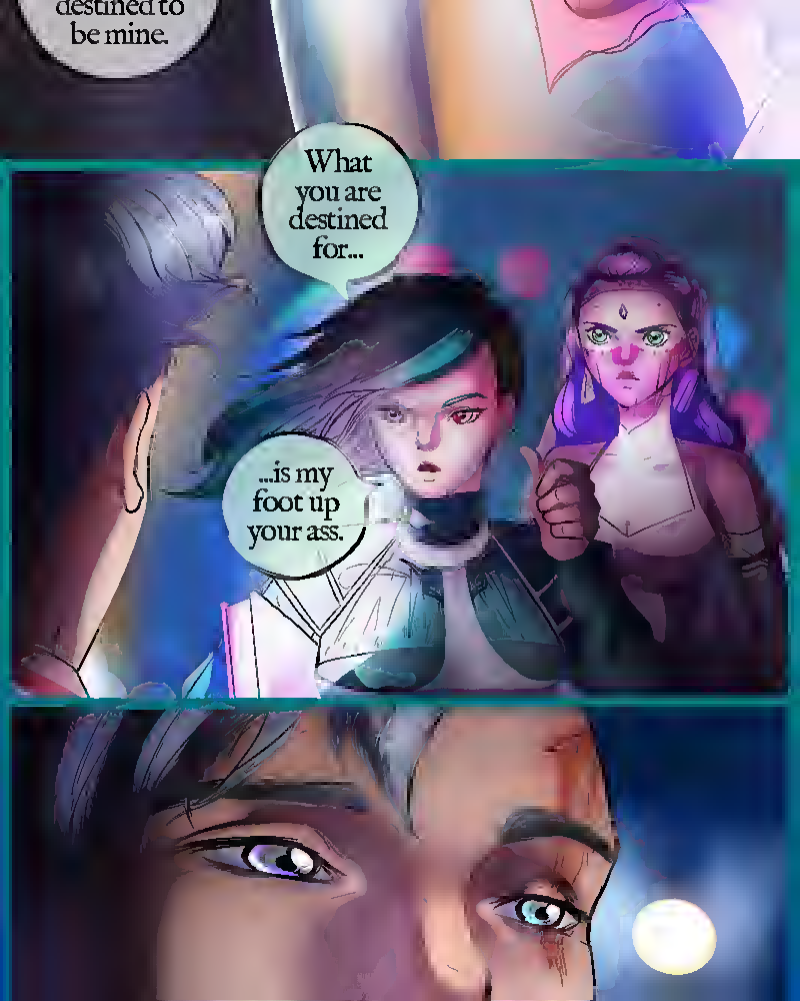
Sophie, I'm *very* impressed, but...



Rhea Oribel here,
...has piqued my curiosity.

I have to hand it to your mother... she was very brave,
...leaving Raven Core to protect you.
You can't escape fate. You were



destined to be mine.
What you are destined for...
...is my foot up your ass.

Your highness, Ava is missing.

She's going to miss the lighting of my birthday candles.

Terra... she's dead!
I couldn't save her.
How can you save anyone, if you can't even save yourself?

Please help me, Bebo.

Hold your breathe.
